The application fee will be deducted from the first tuition fee instalment for all accepted candidates. Late course registration / change / cancellation fees

- (1) Students who will not have paid their tuition fees by the opening of course registration (and are put on finance hold as a consequence) will not be able to register for courses until the finance hold is released from their user account. Once finance hold is released, students will be able to register for courses. However, students will not be guaranteed registration in the desired courses and depending on the timing of their release may need to be registered manually by authorised Modul University staff. In such cases a separate finance hold release fee applies.
- (2) Late course registration fee: A fee applies for course registrations that have to be done manually by authorized Modul University staff on behalf of students who otherwise had a window of opportunity to register themselves for courses in the regular course registration period but did not manage to complete their registration by the provided deadline. The fee applies per course.
- (3) Late course change fee: A fee applies for course registration changes made after the official course registration period has ended. The fee applies per change.
- (4) Late course cancellation fee: If approved by the Dean of the respective study program via special consideration, cancellations of regular semester courses that occur after the official and, if available, the extended registration period, incur a fee. The Dean of the respective study program might decide on a fee waiver if the student is facing exceptional circumstances. If approved by the Dean of the respective study program via special consideration, cancellations of blocked MBA/MSc enrichment courses requested within two weeks of the commencement of the course also trigger a late course cancellation fee.
- (5) The Dean of the respective study program might decide on a fee waiver if the student is facing exceptional circumstances.
- (6) Late requests concerning blocked MBA or MSc enrichment courses can be processed by the Academic Office without requiring an approval via special consideration from the

- (7) The Master Thesis Tutorial II course is exempt from any cancellation fees.

Students with an overdue balance of less than 50 EUR shall be exempt from this rule.
- (2) The access of students on finance hold will be suspended to course registration, to grades and to any official documents / academic transcripts in MU’s information systems until their overdue balance is settled. Furthermore, MU will stop issuing any physical documents to affected students.
- (3) Finance hold release fee: A fee will apply to students for manually reactivating their access to MU’s information systems as a consequence of being put on finance hold.
- (4) Finance hold release fee is charged when a student’s enrollment status is switched to finance hold. The fee is immediately due. The Extra ECTS credit fee is charged for services provided by authorized MU staff based on student request and with a due date of 7 calendar days. However, the requested changes cannot be implemented until Student Accounting confirms the receipt of the payment or sufficient proof thereof to the Academic Office.
